PRELIMINARY AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

Prior to examination of the above-referenced application, please amend the specification
as follows:

On page 1 of the specification, under the title, please insert:

--This application is a continuation of U.S. Serial No. 09/226,075 filed 6 January 1999

and now abandoned...

On page 3, please delete lines 8-10 and on line 11, please delete "C3AL-kanesulfonic
acid. (Figure 2)"; and

~~please substitute the following:~~

A2
--The present invention is drawn to the use of compositions comprising lipopeptides represented by the general formulas shown in Figure 1 and Figure 2. --

Prior to examination of the above-referenced application, please amend the claims as follows:

Please cancel claims 1-53 and substitute the following claims:

54. A method to treat neoplasia which method comprises administering to a subject in need of such treatment a therapeutically effective amount of a pharmaceutical composition containing MTP-PE or JBT 3002 encapsulated in multilamellar liposomes.

Sub B1
55. The method of claim 54 wherein said pharmaceutical composition further comprises a different anti-neoplasia agent.

56. A method to ameliorate myelosuppression, mucositis or peripheral neuropathy in a subject, which subject has been treated with a neoplastic agent, which method comprises administering to said subject a pharmaceutical composition comprising MTP-PE or JBT 3002 encapsulated in multilamellar liposomes.

57. A method to upregulate IL-15 production in a subject which method comprises administering to a subject in need of such upregulation an effective amount of a pharmaceutical composition which comprises MTP-PE or JBT 3002 encapsulated in multilamellar liposomes.

ADD B2
REMARKS

The present application is a continuation of U.S. Serial No. 09/226,075 which is being abandoned. The amendment to the specification is to correct an obvious typographical error. The claims have been amended to focus on methods of treatment. The present claims are
